

## EARN WHILE YOU LEARN

At Gold Coast Language Schools we proactively assist our students to gain employment in Australia. From the monthly job seminar to resume writing, we are always ready to help students in their search for jobs.

\*For the month of February, GLS will be introducing free access to hundreds of jobs especially for travellers. Jobs are available all over Australia. From hospitality to childcare, administration to the trades, these jobs are only available to travellers. How does it work?

- **Students can browse the website and look for jobs.**
- **See a job they like and apply online**
- **Use the service as many times as they want for 3 months**
- **The service is activated once the student applies for their first job not from the day they commence their study**

Look out for the details in next month's specials.

\* Only available for enrolments of 10 paid weeks or more

## Free Job Seminar

Toni Cho GLS marketing officer conducted the first of the monthly job seminars for 2009 this week. Toni is currently completing her Master of HR Management at Griffith University and specialises in recruitment and training. Toni gave an informative and in-depth presentation to over 20 students from Korea, Japan, Russia and China. Students were given a presentation on how to:

- **source jobs**
- **write an application form**
- **write a cover letter & resume**
- **prepare & dress for an interview**

Toni took the students through a practice interview to show them how it was done. This was very informative as well as lots of fun for the students. Toni has already assisted many students to find jobs in Australia and will act as mentor to the students that attended this week's job seminar

A big thank you from all the students Toni, they wanted to say how much they appreciate what you do for them.
